

**PHYS 1112 Questionnaire**  
**Spring 2008**  
(complete *both* sides)

Name: \_\_\_\_\_ Hometown: \_\_\_\_\_

Year in college: \_\_\_\_\_ In Honors Program? (Y/N) \_\_\_\_\_ Major: \_\_\_\_\_

Lab section (day/time): \_\_\_\_\_

Highest level of math completed, and when completed:

List any previous physics or astronomy courses you took in high school or college, aside from PHYS 1111/1211. Please indicate if they covered topics in electromagnetism or optics.

When did you take PHYS 1111/1211 (or its equivalent)?

What physics or math topics/concepts did you have the most difficulty with in PHYS 1111/1211?

If you are taking this class as a requirement for your major or professional program, why do you think it is required?

How many hours per week, *outside of lecture and lab*, do you expect you will spend on this course to achieve your goals?

(turn over)

If you did not perform as well as you'd hoped in your previous physics course, describe what you plan to do differently this semester. If you performed to your expectations, describe what you think was your most effective strategy for learning.

What topics or concepts of this course do you think might be most challenging for you?

Think of at least one question you have about some physical phenomenon that you hope might be answered by this course.

What are some of your interests and activities outside of academics?

---

Completing and signing this introductory questionnaire is an important and **required** component of enrollment in this course. By signing below, you certify that you have thoroughly read and understood the course syllabus, including policies about:

- homework and reading assignments
- grading and make-up
- attendance, participation, and behavior
- academic honesty

In particular, your signature means that you are agreeing to abide by the course and University policies as described in the syllabus.
