

MINIMUM REQUIREMENTS:

You must complete at least 7 experiments. Failure to do so will result in a grade of ZERO for the lab. (Since we take the best 8 out of 10 worksheet grades—see #10 on page 3--if you ONLY complete 7 experiments, one of your worksheet grades will be a zero.)

Laboratory Manual:

Experiments for an Introductory Physics Course 2016 Edition or 2017 Edition UGA
Dept. of Physics and Astronomy (Hayden-McNeil Publishing).

If you are retaking the course within a five-year period, and you are happy with the final lab grade you received previously, you may use that lab grade again and you do not have to attend the lab. You do have to remain registered for the lab, but you do not have to attend. Please notify the Lab Coordinator (see contact information below) as soon as possible if you want to exercise this option. (Please do so **BEFORE THE END OF THE DROP/ADD PERIOD** so that your seat may be made available to another student.) If you would like to improve your grade, or are taking the course again after five years, you must do **ALL** of the required lab exercises again and take the lab exam.

Physics 1111L /1211L/1311L Lab Syllabus Fall 2022

Week	Date	Experiment	Exercise #
1	17-Aug	NO LAB	
2	22-Aug	First Diagnostic Test/Introductory Laboratory Exercise	1
3	29-Aug	Motion with Constant Acceleration	2
4	5-Sep	NO LAB	
5	12-Sep	Equilibrium of a Point Mass	3
6	19-Sep	Newton's 2nd Law	4
7	26-Sep	Uniform Circular Motion	5
8	3-Oct	Ballistic Pendulum	7
9	10-Oct	Collisions (print experiment and bring to lab)	Printout
10	17-Oct	Static Equilibrium (print experiment and bring to lab)	Printout
11	24-Oct	NO LAB	
12	31-Oct	Simple Harmonic Motion	8
13	7-Nov	Standing Waves on a String	9
14	14-Nov	Lab Exam	
15	21-Nov	NO LAB	
16	28-Nov	Second Diagnostic Test/Lab Exam Review	
17	5-Dec	NO LAB	

Laboratory Coordinator: Dan Boyd Room 310 Physics, 706-542-2903, Daniel.Boyd@uga.edu
(Please include which course you are taking and the day and time of your lab in your correspondence.) We welcome any comments or suggestions on the lab course evaluation for improving the laboratory course. Thank you.

Please note: The rules below and on the next pages supersede anything your Teaching Assistant (TA) tells you to the contrary. If that happens, please bring it to the attention of your TA, or ask the Laboratory Coordinator for clarification.

1. **Preparation:** You must read through the experiment and also relevant material in the textbook **before** attending the lab. The more prepared you are the better, especially in those cases where the lab gets ahead of the lecture.
2. The only things you need to bring to the lab are your lab manual, a calculator, and a pencil. **If you bring a completed worksheet from another student into the lab, or even a worksheet of your own from a previous semester, you will receive a zero for that experiment and that zero will count in your final average.** (Please put your name on your calculator in case it gets lost.)
3. **Sign In:** You **must** sign in when you enter the lab. A sign-in sheet will be located on the lab bench at the front of the room. ***Not signing in may result in a grade penalty for that experiment.***
4. **Late Policy:** At the start of the lab the TA will outline important procedures and safety guidelines. ***Please do not be late!*** The labs will start promptly at the scheduled time. **Approximately** 10 minutes after that, the door to the lab room will be locked and a sign will be posted on the door, which says, “You have arrived too late to do the experiment.” If the door is locked and/or that sign is posted, you have missed the lab and will receive a zero for that experiment. ***PLEASE NOTE: The late policy is intended for an occasional late arrival. It does not mean you can show up late to every lab. If the TA sees that you are abusing the late policy, he or she may deny you entry.***
5. After the introductory lecture, you will perform the experiment. You will usually perform the experiment with a lab partner, but **you must answer all questions on the worksheet IN YOUR OWN WORDS.** ***Not doing so will result in a grade penalty.***
6. **Clean Up and Check Out:** When you have completed the experiment, please clean up your station! Remove all trash and follow the guidelines given by your TA or written on the front board for dismantling the equipment to make it ready for the next class. After you have cleaned up, call the TA over to check you out. Write your name **and your lab partner’s name** at the top of the worksheet and give it to the TA. If you have handed in a worksheet and cleaned up your station properly, the TA will put a check next to your name on the sign-in sheet. ***Do not leave the lab room before your TA has checked-off your name on the sign-in sheet. Leaving the lab without checking out will result in a grade penalty.***
7. At the next lab meeting the TA will hand back the graded worksheet from the previous experiment. **This is the time to ask the TA to correct any mistakes he or she has made in grading—NOT at the end of the semester when you realize that you need a few more points to raise your grade level.** All such requests at the end of the semester will be denied.
8. **Please keep all graded worksheets on file.** In the event that a grade is not recorded properly, you may be asked to bring in the graded report as proof that you completed the lab.
9. **You will receive a zero for each experiment that you do not perform.**

10. **Laboratory Grade:** Your overall lab grade will be a combination of:
- Worksheet Grade:** The average of the best 8 out of 10 grades you receive on your lab worksheets = 70% of the lab grade. (If you have only completed the minimum number of 7 experiments, then one worksheet grade will be a zero. **If you have completed less than 7 experiments, your entire lab grade will be a zero, not just your Worksheet grade.**)
 - Lab Exam Grade** = 30% of the lab grade.
 - Grade Web Site**—you may view your grades online at any time by going to

<https://www.physast.uga.edu/student>

Note: Please check your online grades on a regular basis. Every once in a while a TA may make a mistake in entering a grade. If you find an error, please tell your TA as soon as possible.

11. **Withdrawals:** All withdrawals are done online through Athena. The lecture and lab are linked together as a 4-credit course. This means that you cannot withdraw from one without withdrawing from the other. **If you withdraw, you can no longer attend the lab and you will have to repeat ALL of the experiments again if you retake the course, no matter how many you have completed at the time of your withdrawal.**

12. Missing an experiment: *Please read these sections carefully—then read them again!*

Keep in mind that there are many lab sections and that, on average, 2 students miss lab in each section each time an experiment is performed. This means many students are absent each week we have lab which is why **you cannot simply attend another lab section later in the week if you miss a lab** and why we operate under the rules given below.

CAUTION: You must be very careful about missing experiments. In other words, leave open the option of missing an experiment for “life’s unforeseen circumstances.”

- Missing One or Two Experiments: You will not be penalized since we only take the best 8 of 10 worksheet grades.
- Missing Three Experiments: You will get a zero for the third miss.
- If you complete less than 7 experiments your entire lab grade will be zero.**

We will only stray from these rules under university guidance.

13. Lab Exam

- The lab exams are given in the lab at your regular day and time during the week shown on the schedule. THEY ARE NOT GIVEN DURING THE WEEK OF FINAL EXAMS. Do not make any appointments or schedule anything that will keep you from taking the lab exam on your appointed date and time.**

- Missing the Lab Exam:** If you miss the lab exam **contact the Lab Coordinator IMMEDIATELY—the same day if possible!** The Lab Coordinator will decide if you will be allowed to do a make-up exam possibly in another lab section during the dates of the lab exam. **If you miss the lab exam without a legitimate excuse, you may still be able to do a make-up exam, but you will be penalized.**

The department has the right to adjust any policy found herein as seen fit and without notice.
