 PHYS 1112: Introductory Physics — Optics, Electricity & Magnetism

Section: 25676; TH 9:35 A.M. - 10:50 A.M.
Lectures will be given in Zoom sessions at regular class times. No recordings!
See ELC for Zoom links.

Instructor: Professor Henning H. Meyer
Office hours: H 3:00 P.M. - 4:30 P.M.
Problem Zoom Session: H 5:00 P.M. - 6:00 P.M. or day before exam.
Office: Room 217(old: 223B), Physics Building
Email: hmeyer@uga.edu, add ‘PHYS1112 Period2’ to subject line.
No individual communication via ELC!!!
ELC: General announcements; Posting of lecture slides/comments, homework or exam solutions, practice exams.

I. GENERAL INFORMATION

• Primary method of communication: during office hours;
• Email through: hmeyer@uga.edu
• Text: James S. Walker, Physics, Volume 2 5th edition (2017). (3rd or 4th editions are fine, but you will be responsible for knowing about any changes in content.) The bookstore describes the text as: Physics Volume 2& VP AC MOD MST.
• Make sure you get a copy that says: w/MasteringPhysics.
• Mastering Physics: To register look for Course Name: PHYS1112-Fall2020-MeyerPeriod2 with Course ID: meyer84802 – You will need to enter your UGA ID, i.e. your 81X number. Enter 9 digits only – do not enter the last digit.

II. ACADEMIC HONESTY

• The University of Georgia has a comprehensive policy on academic honesty, described in a document entitled “A Culture of Honesty.”
• The document is available online at https://honesty.uga.edu/_resources/documents/academic_honesty_policy_2017.pdf.
• The policy covers all academic work. As a UGA student, you are responsible for knowing and understanding this policy.
• If you have any question about the appropriateness of your actions or your work, you are obligated to ask me for clarification.

III. GRADING POLICY

• Overall grade will be determined as follows:
• 20% LAB grade (completion mandatory; see Section V for details)
  15% HOMEWORK (no makeup; working in groups OK; must be submitted individually)
  45% EXAM 1 (no makeup; must be taken with the section you are registered for)
  EXAM 2 (no makeup; must be taken with the section you are registered for)
  EXAM 3 (no makeup; must be taken with the section you are registered for)
  EXAM 4 (no makeup; must be taken with the section you are registered for)
  Worst of 4 exams dropped
• 20% Final EXAM (no makeup, unless required by University Rules)

100% TOTAL
• Letter grades will be assigned in accordance with the following cut-offs (for additional rules see below):
  • F: [0, 55)  D: [55, 65)  C−: [65, 68)  C: [68, 72)  C+: [72, 75)  
  • B−: [75, 78)  B: [78, 82)  B+: [82, 85)  A−: [85, 90)  A: [90, 100]  
  • NOTE: There is no rounding; 64.99 = "D", etc.  

IV. LABS (20%)  
• All students are required to complete the LAB part of the class.  
• Students who are not assigned a lab grade due to non-completion will automatically receive a failing grade ("F") for the course.  
• PLEASE NOTE:  
  ▪ Labs will start week of August 31.  
  ▪ Lab syllabus: Use the link below from the Department’s web site, then scroll down to your particular lab section.  https://www.physast.uga.edu/courses  

V. HOMEWORK (15%)  
• There will be a number of HOMEWORK assignments posted online (on the Mastering Physics website).  
• All assignments count towards your grade.  
• All assignments must be submitted on time.  
• No makeup, no late submission.  
• Rules:  
  ▪ You may work in groups.  
  ▪ You submit your work individually.  

VI. EXAMS (45% TOTAL)  
• There will be a total of four (4) EXAMS on selected chapters.  
• Worst of the four exam grades will be dropped (such as, e.g., a “0” due to non-completion), so, technically, \( \frac{4}{4} \) each exam is worth 15%.  
• No makeups or re-scheduling is permitted.  

VII. FINAL EXAM (20% TOTAL)  
• Final Exam is mass exam, date and time: Tuesday, Dec. 15; 7:00 - 10:00 P.M.  
• Comprehensive final exam: All chapters covered in class  
• No makeups or re-scheduling unless required by University rules.  

• Rules for the EXAMS (All exams will be online through ELC):  
  ▪ Recommendation: Prepare ONE (1) STANDARD SHEET of paper containing anything you want (e.g., physical constants, formulae, diagrams, problem solutions, etc.) ALL HANDWRITTEN. You may write on both sides  
  ▪ A simple (non-graphing, non-symbolic, non-programmable) scientific calculator.  
  ▪ No other electronic device(s) permitted.  
  ▪ Must work individually.
VIII. INCOMPLETES

- You may be assigned an "I" (incomplete) for the course in accordance with the UGA Regulations, provided all of the following applies:
  - You received a non-failing grade in LABS (> 70)
  - You received a non-failing grade (> 55%) on at least one EXAM,
  - No violation of the Academic Honesty Policy took place during the course of the semester.

IX. ABSENCES

- You are responsible for obtaining any announcements/materials/information that were given out in a class that you missed.

X. WITHDRAWALS

- The Undergraduate Bulletin and the Registrar’s Office website describe the University policies regarding withdrawals and incompletes. The deadline for withdrawal is **Tuesday, October 27th**.

XI. TUTORS

- Tutors are available through the following:
  - Department of Physics and Astronomy: https://www.physast.uga.edu/tutors/
  - UGA Tutoring Program: http://tutor.uga.edu/arc/tutoring/ Please remember: the goal is to learn from your tutor, not for them to do your homework for you.

XII. HOW TO DO WELL IN THIS CLASS

- Read each chapter before it is discussed in class.
- Attend every lecture.
- Participate actively in discussions.
- Re-read chapter carefully after class. Rework the notes taken during lecture.
- Do assigned homework.
- Solve as many end-of-chapter problems as possible.
- Use a buddy system: find a friend with whom to discuss physics.
- Think about physics on a regular basis.
- If everything fails, consider dropping the class before the deadline and retaking it at a later time.
